

SWATI KHATRI

Full Stack Developer (MERN)

Bikaner, Rajasthan, India | +91 9413659177 | khatriswati23@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

SUMMARY

Full Stack Developer with 1+ year of production experience building and deploying web applications on the MERN stack (MongoDB, Express.js, React, Node.js) with TypeScript and Next.js. Specializes in RESTful API design, JWT authentication, role-based access control (RBAC), and SQL/NoSQL database optimization. Shipped systems supporting 450+ active users across job-portal, voting, and e-commerce platforms. Strong record of end-to-end ownership from database schema to deployment.

TECHNICAL SKILLS

Languages: JavaScript (ES6+), TypeScript, C++

Frontend: React, Redux, Next.js, HTML5, CSS3, Tailwind CSS, Bootstrap

Backend: Node.js, Express.js, RESTful APIs, JWT Authentication, RBAC, Mongoose, bcrypt

Database: MongoDB, SQL, Query Optimization & Indexing

Deployment & Tools: Vercel, Render, Hostinger (cPanel/VPS), FileZilla (FTP/SFTP), Linux (CLI/SSH), Git, GitHub, Postman

EXPERIENCE

Full Stack Developer — Harsh Technology [Jodhpur, Rajasthan]

Apr 2026 – Present

- Build and maintain SuperScore, a live scoring management platform, delivering feature enhancements, workflow improvements, and bug fixes across the full stack.
- Engineered the backend for Hamare Rishte, a genealogy platform supporting unlimited-depth family trees, relationship auto-fill, and structured search by state, city, caste, and village.
- Built a secure OTP-based voting system (email + mobile verification) supporting public, invite-only, and on-stage live voting with a real-time results dashboard for organizers.
- Delivered a Quiz Management System handling team registration, live score tracking, and performance analytics.

Full Stack Developer — ITech Solutions [Bikaner, Rajasthan]

Jun 2025 – Mar 2026

- Designed and shipped 4+ production applications end-to-end using Node.js, Express, React, Redux, and SQL, owning API design, database schema, and authorization logic.
- Architected multi-role JWT + RBAC systems (Super Admin, Employer/Vendor, User) with role-isolated, protected REST APIs across all three projects.
- Career Setu (Govt. of Rajasthan-recognized job portal): built skill-based job matching and an AI-assisted job description generator; scaled to 450+ users, 100+ postings, and 300+ applications.
- Team Vault: built a role-based file-sharing system with hierarchical permissions, folder/file management, and approval workflows.
- Book My Venue: implemented real-time availability checks, booking-conflict resolution, and location-based search across a relational schema for venues, halls, and rooms.
- Secure Nest (Society Management System): Engineered backend workflows for residential safety, including real-time visitor approval/entry logs, staff attendance tracking, SOS alert mechanisms, and vehicle movement auditing.
- Reduced query latency by adding SQL indexing and pagination across all three platforms, and integrated real-time push/email notifications for status updates.

PROJECTS

Bhagwati Hardware — E-Commerce Platform — Team Project

bhaqwatiplywood.store

- Full-stack e-commerce app (Next.js, React, TypeScript, Node.js, Express, MongoDB, Mongoose) for hardware, plywood, and furniture retail, with product variants, cart, wishlist, and order management.
- Implemented JWT auth with bcrypt password hashing, OTP-based password reset via Nodemailer, and an admin dashboard for orders, inventory, and daily sales analytics.

EDUCATION

B.Tech, Computer Science & Engineering — Bikaner Technical University

8.4 CGPA Aug 2021 – May 2025

ADDITIONAL EXPERIENCE & INTERESTS

- Assistant Supervisor, Forever Living Products International (Mar–Jun 2022): Led a team to ₹1,00,000+ in sales through social-media-driven lead generation and targeted growth strategy.
- Digital Content Creator (Instagram [@swatiikhatri](#)): 75+ short-form posts/reels; ~150K monthly reach at 6% avg. engagement across 1K+ followers.
